

Hyndland Secondary School

Wider Achievement Opportunities

2018—2019

In Hyndland Secondary, we know that friendship that last a lifetime are born on the football field, during rehearsal for choir, camping out on Duke of Edinburgh or in school clubs. Taking part in extra curricular activities will help young people develop confidence and commitment in addition to skills and ambition. Participation in clubs, activities and outings can play a major part in personal and social development, improve health and wellbeing and in return improve achievement.

We wish to encourage as many young people as possible to take part in the life of the school in this way and, where possible, make their own contribution to the running of these activities.
